**Corvallis, OR 97330**

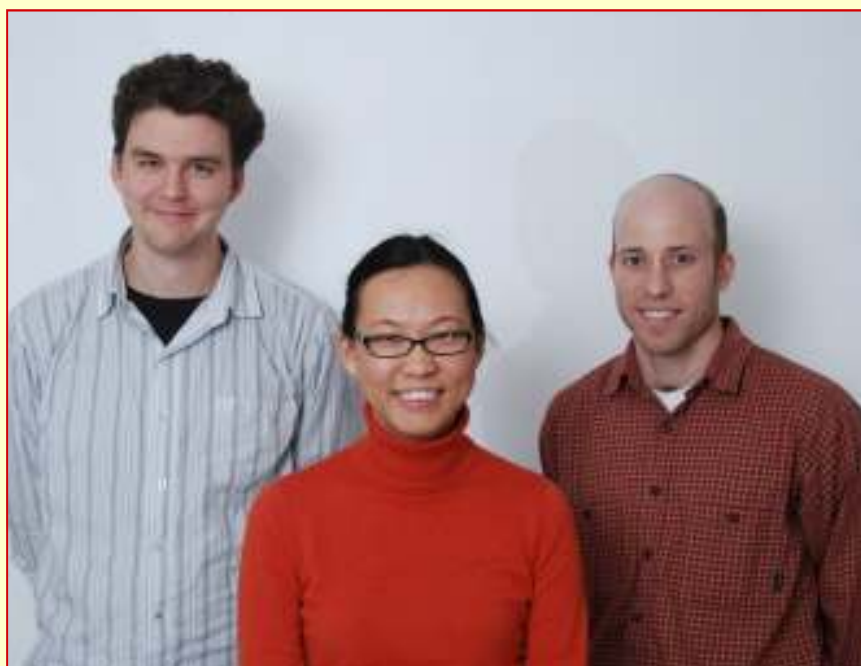

## **This year at the Public Health Week Celebration, The Benton County Health Services Epidemiology Program Will Present Our Web-Based Health Status Report**

The Health Status Report has been developed in response to the need for current county level health data. The last time Benton County released a comprehensive county-wide health status report was in 2000.

The goals of the Health Status Report are to:

- Describe the health of Benton County;
- Provide information on health status for public health planning, development of health programs or services, and grant writing;
- Monitor and improve community programs;
- Assess and better understand the county's health assets and needs;
- Identify health disparities;
- Identify unmet needs and gaps in services provided; and
- Determine public health priorities.

**Authors:**

Sandy W. Goeke, MPH, Epidemiologist, Stephen Grady and Christian Laugen, Interns, and, Julee Syverson, Web Administrator (not shown above).
